

PRESS RELEASE / PUBLIC CLARIFICATION

Date: April 19, 2025

Clarification on News Articles published on various platforms regarding investor details, valuation and fundraising plans of Rayzon Solar Private Limited

It has come to our attention that various news articles and posts have been circulating across Internet platforms and social media channels since April 18, 2025 pertaining to Rayzon Solar Private Limited's equity structure, investor details, and alleged association with certain well-known public figures.

We would like to clarify as follows:

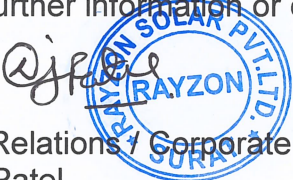

- The information published regarding the names of investors, the amount of funds raised, the valuation of the company, and related matters is incorrect and inaccurate. These claims are unverified and differ significantly from our official records and validated corporate information.
- Statements regarding company's future plans, including manufacturing expansion and further fundraising, are speculative and based on rumours. Rayzon Solar Private Limited does not endorse or confirm any such information.

We sincerely request all stakeholders, readers, investors and general public not to rely on these articles, as their content may be misleading. We are formally requesting all such agencies, media outlets and Influencers to immediately remove the articles and posts from their respective platforms.

About Rayzon Solar Private Limited:

Rayzon Solar Private Limited is one of the leading Solar module manufacturers of India with mission to contribute to India's renewable Energy goals. Rayzon solar is committed to provide high-quality and reliable Solar modules to its customers.
